### Neal Gerber Eisenberg Achieves Mansfield 3.0 Certification

Neal Gerber Eisenberg is proud to announce that it has attained Mansfield 3.0 Certification after successfully completing the 12-month certification program led by Diversity Lab.

To achieve Mansfield Certification, NGE confirmed that at least 30% of the candidates it considered for leadership and governance roles, equity partner promotions, formal client pitch opportunities, and senior lateral positions were historically underrepresented lawyers, including women, attorneys of color, LGBTQ+ lawyers and lawyers with disabilities.

"Our strategic vision recognizes that attorneys with diverse backgrounds, experiences and insights allow us to better serve our clients and our community," said Scott Fisher, Managing Partner. "NGE's decision to participate in the Mansfield Rule formalizes what we, as a management team, have done informally for some time. It is an important step toward a more inclusive culture, and it aligns with our efforts to ensure that every individual at the firm has the same opportunities to advance and succeed."

The Mansfield Rule aims to increase the representation of diverse lawyers in law firm leadership roles by broadening the pool of candidates considered for those opportunities. The certification is named for Arabella Mansfield, the first female lawyer in the United States.

*Neal Gerber Eisenberg is a leading law firm dedicated to handling sophisticated matters for entrepreneurs, public companies, and private businesses and their owners. Our attorneys provide legal business solutions to public and private entities of all types—including Fortune 100 companies, financial institutions, nonprofits and high net worth individuals—in connection with domestic and global business transactions and litigation. The firm has built over thirty years of trusted partnerships with clients that span the globe, and we meet each unique client need with the same personalized service and collaboration that provide the most practical solutions for every matter.*
