### NGE Represents AMOpportunities in Latest Funding Round

NGE served as counsel to AMOpportunities in its \$2 million Series A2 funding round, adding to the \$5.4 million in funding raised in 2021. Investors in the round include Chicago's OCA Ventures, PACE Healthcare and Dreamit Ventures.

The AMOpportunities platform enables medical students to more easily match with necessary clinical rotations, automating many time-consuming administrative tasks and allowing teaching hospitals more time with their students. Through its platform, AMOpportunities is seeking to help hospitals with their staffing shortages during these trying times.

The NGE team was led by Corporate & Securities partners Tina DeMento and Michael Gray with assistance from associate Nancy Zhao.
