David Wheeler Quoted in *LegalTech News* Article on Key Developments in AI Governance and Regulation in 2023

In the dynamic landscape of AI regulation and data governance, our Cybersecurity & Data Privacy team leader, David Wheeler, weighs in on the pivotal developments in 2023 in the article "Legal Tech's Milestones for AI Regulation, Data Governance & KM in 2023" published by *LegalTech News*. Wheeler highlights key milestones, including the Data & Trust Alliance's focus on data integrity standards crucial for training reliable AI tools, the issuance of the AI Risk Management Framework by the National Institute of Standards and Technology, and government initiatives addressing AI security and privacy standards. Wheeler also emphasizes the need for a risk-managed approach to AI, navigating self-regulatory organizations, internal governance, and legislative initiatives.
